YOUR BRIDGE TO THE BRAZILIAN MARKET - SINCE 1953

DESENVOLVENDO IDEIAS EM PARCERIA

COLABORAÇÃO VERDADEIRA ENTRE A SAAB E A INDÚSTRIA BRASILEIRA

O Programa de Transferência de Tecnologia do Gripen NG visa fortalecer a indústria aeroespacial brasileira e trazer os conhecimentos necessários para o desenvolvimento do Gripen NG no Brasil.

Este Programa, iniciado em outubro de 2015, inclui o treinamento de mais de 350 profissionais brasileiros, entre engenheiros, operadores, técnicos e pilotos das empresas parceiras e da Força Aérea Brasileira, por meio de cursos práticos e teóricos na Suécia. Desta forma, habilidades e conhecimentos estão sendo transferidos para a indústria nacional, tornando possível um extenso trabalho de desenvolvimento e produção do caça, incluindo a sua montagem final no Centro de Projetos e Desenvolvimento do Gripen (GDDN), localizado nas dependências da Embraer, em Gavião Peixoto (SP).

Nosso pensamento inovador é uma das bases desta parceria. E, com a participação da indústria brasileira, estamos criando o mais avançado caça multimissão do mundo, no Brasil.

MUDANDO O MUNDO QUE REALMENTE IMPORTA. O SEU.

Scania é líder em transporte sustentável porque investe em eficiência energética. Isso garante combustíveis menos poluentes para o mundo e tecnologias que proporcionam maior economia para o seu negócio.

Acreditamos que cada cliente é único e por isso, personalizamos soluções para que a sua operação esteja sempre conectada com as suas necessidades. Prepare-se, o futuro está sob o seu comando.

SCANIA

MESSAGE FROM THE MANAGING DIRECTOR

The Swedish-Brazilian Chamber of Commerce was founded in 1953, meaning that we celebrate 65 years of existence this year—but we certainly have no plans to retire! We are a very active and vital old-timer, always open to new initiatives in order to adapt to new trends in modern society. We have become very present on Social Media, our Facebook page has more followers than ever, and we have also started to do online transmissions of some events. Virtual Swedcham 6.5 has really been a success in terms of exposure outside our own "traditional circles".

People are increasingly more mobile and connected and that is why we continue publishing this Member Directory only in an electronic format, and we hope that it will always be accessible on your devices and that you use it as your first source whenever you look for a new service or product.

Brazil is indeed a fascinating and challenging country, with its constant ups and downs, and it is a well-known fact that it is not a market for beginners or people with weak stomachs...We as a Chamber of Commerce have an important role to play in supporting all of you who have the courage to enter the market with our unique network of people who have a long and deep knowledge of doing business in Brazil.

It is a proven fact that sharing good and bad experiences with others can save you and your company a lot of time and money. The Chamber continues strong and solid even in the worst Brazilian economic and

political crisis in modern history, and that must mean that we have something interesting to offer.

Looking back on this year so far, there have been many interesting events with high-level speakers giving presentations on topics such as space travels, labor reforms, women empowerment, industry 4.0 and more. Sweden made it all the way to the quarter-finals in the World Cup and we showed all the games at the Chamber with great media coverage on national TV. Before we close for the Christmas and New Year holidays, we still have some major projects and events in the pipeline, such as the annual Business Climate Survey, Innovation Weeks and the Career Fair.

Team Sweden in Brazil (consisting of the Embassy, Business Sweden and the Consulates in São Paulo and Rio) works very well, and it is most encouraging that the teamwork we have built up here in Brazil is regarded as something of a role model "back home" in Sweden.

Finally, I would like to express my deepest gratitude to you as a member, but also to my small but devoted staff and our chairman and his very qualified Board of Directors – without all your encouraging support we would not be the strong and successful Chamber we are today! Enjoy your reading and hope to see you at some coming event!

YOUNG PROFESSIONALS

Swedcham Young Professionals creates a link between young students and professionals, who have just entered (or are about to enter) the Brazilian workforce, and Swedish companies located in Brazil, and hence, establish possibilities for young professionals to enhance their professional career.

Swedcham Young Professionals aims to improve the relationship between the major Swedish universities and the Swedish companies in Brazil. Furthermore, it also serves as a social and professional networking platform for young professionals already working at Swedish companies in Brazil.

Swedcham Young Professionals provides the basic information about arriving in Brazil in order to help newly arrived Swedes to easily integrate in society, and simultaneously help them to interact with the large Swedish community in Brazil.

The main event is the Sweden-Brazil CareerFair which this year will be organized on November 23 at Hotel Melia on Av. Paulista in São Paulo, joining students, universities and companies under one roof.

SWEDISH BUSINESS CLIMATE SURVEY

Every year, Swedcham carries out a survey among Swedish companies in Brazil in order to better understand the business climate and the direction of the business in general. This year the survey which consists of 42 questions on topics such as market barriers, CSR and business forecasts, will be sent out after the elections.

The report will be launched in late November with the presence of Ambassador Per-Arne Hjelmborn, Trade Commissioner Andreas Rentner and Honorary Consul General Renato Pacheco, forming Team Sweden in Brazil which give strong support during the whole project. You can read the complete report from 2017 on Swedcham's website.

THE BRAZILIAN CHAMBER OF COMMERCE – BRAZILCHAM SWEDEN

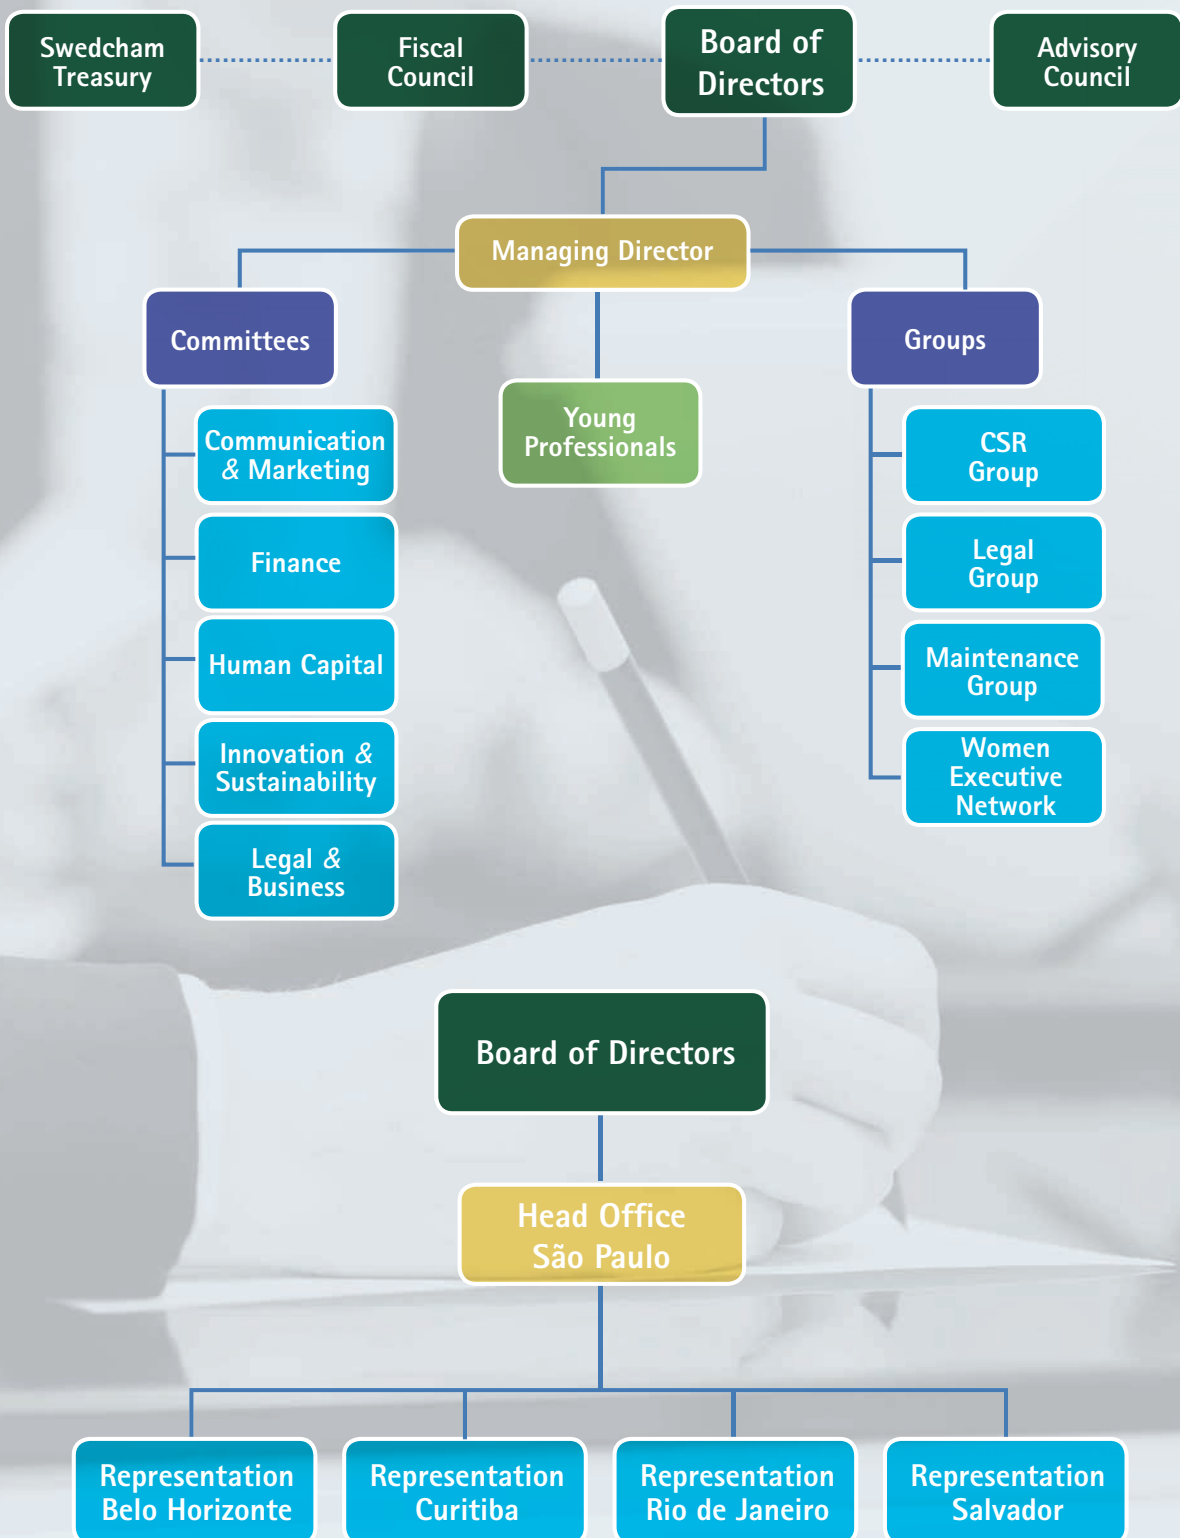

The Brazilian Chamber of Commerce in Sweden (Brazilcham) was founded in 2006 as a sister chamber to Swedcham in Brazil. It is funded by member's contributions and sporadically by funds generated from a number of activities, organized and run by the Chamber. Brazilcham promotes and develops bilateral links between Brazil and Sweden.

Nossa produtividade sustentável chega onde ninguém mais alcança.

Soluções de vácuo e ar comprimido de alta eficiência energética. Geradores de gases que reduzem a emissão de poluentes. Geradores de energia certificados contra contaminação do solo. Sistemas de montagem industrial que racionalizam o consumo de recursos. Ações globais de apoio e educação social e ambiental. A Atlas Copco sabe que a verdadeira produtividade só pode ser alcançada pela sustentabilidade. O crescimento só pode acontecer em um mundo sadio. Acreditamos nisso e nos comprometemos em tornar este conceito cada vez mais presente, através de ações e soluções.

Autoliv

Make more with less

Founded more than 200 years ago, Höganäs is the world leader in metal powder solutions for a broad range of applications. As modern technology changes our lives, we believe that metal powders can improve resource efficiency and contribute to a sustainable world. With this knowledge in mind, we inspire industry to make more with less.

- » Höganäs powders are used to optimize component design, energy consumption, and production processes in the industrial sector, and they reduce the need for product maintenance and facilitate ease of recycling.
- » With our soft magnetic composites solutions we meet the increasing demand for lighter and cost-efficient electromagnetic applications in electric vehicles and hybrid cars just as well

as our sintered components do in conventional combustion-engine driven cars.

- » Höganäs Cleanit® is a unique way to clean drinking water. It is a highly effective, low-cost, low-energy, and low maintenance method to produce clean water by removing contaminants.

in Stockholm, Sweden, and has passionate people supporting and collaborating with customers in more than 150 countries.
